

**Dear ToxRat users, colleagues and business partners,**

we really enjoy to be part of the virtual exhibition – an exciting experience.

Nevertheless, in the virtual space, we will miss what is our most important motivation to participate as exhibitor at all: **the face to face contact and possibility to reconnect in person** with ToxRat users, business partners and participants in general. That is, what makes our presence at the SETAC meetings different from what we are anyway doing the whole year via email, phone and online meetings.

We therefore kindly ask for your understanding that in this virtual exhibition, we are not available for online chats.

Instead, we'd like to encourage you to contact us via email or phone in case of any questions, concerns and requests - as usual!

Hope to see you again soon and in person.

Inbetween – just take a virtual “green frog”, you are welcome 😊

Kind regards,
